

International Workshop on Advanced Co-based Superalloys: 3.0

June 23rd & 24th, 2015

National Institute of Standards and Technology
Gaithersburg, Maryland, USA

Hosted by:

Materials Science & Engineering Division

Invited Speakers Include:

- Prof. Rajarshi Banerjee, University of North Texas
- Prof. Kamanio Chattopadhyay, Indian Institute of Science
- Prof. David Dunand, Northwestern University
- Prof. Qiang (Charles) Feng, University of Science and Technology Beijing
- Dr. Thomas Hammerschmidt, RUB, Bochum
- Prof. Haruyuki Inui, Kyoto University
- Dr. Erin McDevitt, ATI Metals
- Dr. Steffen Neumeier, FAU Erlangen-Nürnberg
- Prof. Toshihiro Omori, Tohoku University
- Dr. Mauro Palumbo, RUB, Bochum
- Prof. Florian Pyczak, Helmholtz-Zentrum Geesthacht
- Prof. David Seidman, Northwestern University
- Prof. Sannakaisa Virtanen, FAU Erlangen-Nürnberg

In addition to the presentations by invited speakers, a poster session is planned for Tuesday (day 1) afternoon, and is open to all participants. Please submit abstracts for this session by June 1, 2015.

To register for the workshop, please fill out the NIST visitor information form by June 1, 2015 and submit it to:

Dr. Eric A. Lass
